18 A. Color Drawing Petition
19

20 Applicant has provided herewith three copies of the drawings for the above-identified patent
21 application that include color images. These color images are necessary to illustrate the
22 functionality of the present invention, as described and claimed in this patent application. If black
23 and white images were used instead, the capabilities of the present invention would not be evident or
24 appreciated.
25

26 The specification of the present patent application has been amended in the response filed
27 herewith to contain the statutory paragraph required by 37 C.F.R. § 1.84(a)(2)(iii), immediately
28 following the heading "Brief Description of the Drawing Figures," on page 5, lines 33-35.
29

30 Enclosed are three sets of drawings, including the color images, and check No. 7255 to cover the
31 required petition fee of \$130.
32

33 For the reasons noted above, it is submitted that the color images in the drawing figures for
34 this application should be accepted, and applicant hereby petitions the Director of the Patent and
35 Trademark Office to grant this request.
